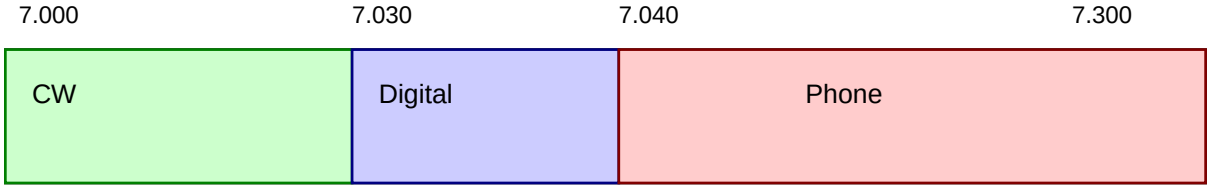
Sample 40m Band Plan (Prototype)

This is a representative snippet from a ham radio band plan document.
Frequencies for the 40 meter band (7 MHz) are allocated as follows:

- 7.000 - 7.030 MHz: CW only
- 7.030 - 7.040 MHz: Narrowband digital
- 7.040 - 7.300 MHz: Phone / SSB


Always check current local regulations. This is for pipeline testing only.
